

Dear Parents

On behalf of the parent-teacher association (PTA):

Welcome to elementary school Het Lover!

Your child has recently begun at this school and you have received a lot of information about school affairs from the managing board and/or the teacher.

But there is also a lot to report about the PTA at this school. In this flyer we would like to introduce ourselves as PTA to you. The reason is simple:

We represent you as a parent and we like to inform you about the things we do. In this way we like to make things easier for you and to establish a good contact with you.

When you have a child in elementary school Het Lover you can be a member of the parent association.

In the parent-teacher association is a delegation of this parent association.

Together for a nice schooltime:

Without the involvement of parents and teachers there can be no extra activities, which make schooltime for your child(ren) special. Wouldn't it be nice if your child could look back on a nice schooltime at elementary school.

For this the help of parents is indispensable. The PTA can always use help with organizing or carrying out activities.

Many hands make things a lot easier of course.

What do we do:

As PTA we represent the parents of the school. We try to be the eyes and ears of the parents and make sure that communication between school and parents is as quick as possible.

You can think about for instance the communication with the class parents, traffic safety around school, funding of for example school shirts.

We also manage the voluntary parental contribution.

With this parental contribution, besides the normal curriculum, other activities are funded. These activities are organised by us, with help from other parents and teachers.

Parents' contribution:

To function properly the PTA depends on the parents' contribution.

For the schoolyear 2018-2019 the contribution is 17,50 per child.

If you are not able to pay the contribution due to circumstances, you can always contact the principal of the school.

Perhaps you can get a contribution from *Stichting Leergeld*. From *Stichting Leergeld* you can receive – under certain conditions - a contribution for costs of school and clubs.

We count on a 100% participation of the parents. We assume that we will find a suitable solution in every circumstance.

What happens with your parents' contribution:

With the parents' contribution we finance a lot of things which have nothing to do with education and teaching materials.

You can think of:

- The decorations around Sint, Christmas, carnival
- schooltrips
- schoolphotographer
- treats during activities
- Sinterklaas gifts

What can you do as a parent:

There are different activities where you can help as a parent,

with parent-teacher association activities:

- Sinterklaas party
- Christmas activity
- Carnival party
- schooltrip
- school photographer
- extracurricular sportsactivities

At the end of each schoolyear you can, via an entry form, indicate your interests as assisting parent for the different activities.

with assistance in class.

At the beginning of the schoolyear class parents are chosen in every group by the teacher. Parents can sign in at the beginning of the schoolyear with the teacher. The class parent is the contact for the teacher and the parents of the group in question. The class parent arranges, on request of the teacher, help with specific group activities and also car transport to field trips and performances. Furthermore class parents are an important link between PTA activities and parent assistance.
